

**Alysnite NZ Ltd  
Stand 7**

Alysnite continues to be leaders in their field with innovative roofing products.

Translucent fiberglass roofing, the company's core business, is manufactured in Hamilton and delivered to customers throughout New Zealand. Having distribution centres strategically located in Palmerston North, Christchurch and Invercargill,

Laserlite Polycarbonate and PVC roofing, Polygold Insulation, Rotary Turbine Ventilators along with numerous other roofing accessories are available and form an important part of the company's business.

Alysnite NZ Ltd takes particular pride and satisfaction from its JAS-ANZ Accreditation Scheme which is recognised in over 90 countries and provides security in respect to our customers.

The newly developed Emergency Ventilation Hatch is set to become an integral part of the buildings fire control system allowing hazardous smoke, fumes and heat to escape the building through controlled roof venting.
