

Autex Industries Ltd
Stand 2

Autex Insulation is proud to introduce its user-friendly range of quality polyester insulation. The Autex range of products are manufactured to exacting specification under strict quality control and our ongoing testing and research ensures quality and consistency across the range of products.

Autex Insulation manufactures a wide range of thermal and acoustic insulation materials for residential, commercial and industrial applications. Our range extends from construction insulation for STC rated systems, to finished acoustic panels and baffles for control of reverberated noise in building interiors.
