

DLM Wallace Pumps Stand 38

DLM Wallace Pumps is a well established company supplying flashings and pumping equipment in to the NZ market.

The company manufactures Multisan and Multiflo packaged sewage and wastewater pumps for the export market and Flashguard Z edge flashing, Sheetlead, Acrylead primed lead flashings, aluminium strip and solders.

In addition, the company also represents a number of overseas brands namely Dektite® EPDM flashings and Homa Pumps including the Sanistar and Saniboy G packaged systems.

This year we are proud to introduce Storm Plastics and their flexible pipe fittings to our range.

DLM Wallace Pumps have offices in Auckland, Fielding and Christchurch.
