

Flashman Flashing Systems Stand 1

Flashman flashing Systems have designed and patented a Branz Appraised extruded aluminium window and door flashing system to eliminate leaks at the joinery to cladding junction where 50% of leaks in leaky homes occur. Suitable for almost all cladding types including brick. Tested in hurricane conditions of 232 kph. Rated specific engineered design. Installed only by Flashman Distributors/Installers. 10 year Installation, 15 year Product Warranty and Producer Statement. 50 year serviceable life. Specified in major leaky home remediations.
