TUESDAY 15 MAY 2012

- 9.00am **Keynote Speaker** - Sir Ray Avery
Observation is the Key to Innovation
A couple of years ago not many Kiwis had heard of Ray Avery. Then in February 2010, he was named New Zealander of the Year. In June 2010, he was awarded the prestigious Blake Medal - named after Sir Peter - for leadership. And on New Year's Eve 2010 it was announced he'd been knighted. In between collecting awards, he wrote his autobiography, sharing the inspiring story of how he went from being a homeless street kid to a successful businessman and scientist who has invented life-saving medical products.
An inspiring session not to be missed!!
Sir Ray Avery appears by arrangement with Celebrity Speakers (NZ)

- 10.00am **MORNING TEA**
