13 - 16 MAY 2012

'Enhancing Professionalism'

REGISTRATION BROCHURE

45th ANNUAL CONFERENCE & EXPO

Viaduct Events Centre, Auckland, 13 - 16 May 2012

INTRODUCTION

The Annual Conference and Expo of the Building Officials Institute of New Zealand is the key annual event in which building professionals have an opportunity to develop a better understanding of the responsibilities and duties imposed on them by Acts and Regulations. It also importantly provides opportunities for Institute members to meet and exchange knowledge and ideas relevant to the science of building with industry stakeholders.

In 2012, the Building Officials Institute of New Zealand Annual Conference and Expo will feature high quality speakers and presentations that will provide a wealth of knowledge and information to those in attendance.

WHO WILL ATTEND?

Over 350 people attended the 2011 Annual Conference and Expo and this number is expected to grow once again when Institute members meet again in Auckland during May 2012. Delegates will include building control professionals, surveyors, architects, builders, developers, product suppliers and others interested in this industry.

PRESIDENT'S WELCOME

It is my pleasure to welcome you to the Institute's 2012 Conference to be held at the new Viaduct Events Centre in the heart of Auckland's waterfront.

The Institute's Annual Conference and Expo is the must attend event of the year for our sector and 2012 will be marked by its own unique deliveries which we have planned to ensure all delegates gain in experience and knowledge.

You our members and stakeholders within the building industry, make this event the success it is each year. The commitment is also exemplified by presenters who deliver a comprehensive technical programme, as well as our diverse range of industry exhibitors. The technical programme will also build on the success of the 2011 Conference and Expo, covering topics and issues which are significantly important to today's Building Controls Sector and to you as the professional Building Control representatives in the built sector.

The decade ahead will have plenty of challenges for the building sector and our programme is designed to prepare delegates in terms of expectations and desirables in the way our sector responds.

Phil Saunders

President, Building Officials Institute of NZ
