

# NZS 4404: 2010

## *Land Development and Subdivision Infrastructure*

Elements **2, 3, 4** and **11**

Ministry for the  
**Environment**  
*Manatū Mō Te Taiao*

Urban design and low-impact design outcomes are increasingly being demanded across the planning, engineering, surveying and landscape design industry sectors.

The soon to be released NZS 4404: 2010 significantly advances design guidance and standards in these areas and will provide sound guidance and direction in relation to RMA planning. It will be an effective new tool either independently or in partnership with technical local codes.

### **Learning Outcomes**

By the end of this one-off seminar participants will have a clear and practical understanding of:

- all aspects of NZS 4404:2010
- the most up-to-date changes incorporated into NZS 4404:2010 and the reasons behind its focus on land development, subdivision and infrastructure design
- how to apply NZS 4404:2010 in practice
- how to integrate NZS 4404:2010 into local authority business
- the future planning and development direction of NZS 4404:2010.

Facilitators **Mark Apeldoorn** and **John Palmer**
