

PACIFIC STEEL THE YOUNG* BUILDING CONTROL

PROFESSIONAL OF THE YEAR:

Those qualifying for this award are required to be under the age of 35 years of age as at 31st December 2018.

This Award goes to an individual who reflects strong professional growth and has dedicated their time to enhancing the Building Control profession.

It's always rewarding to present this award, as more often than not their hair colour is original!

This year's recipient is already gaining the hallmarks of a future leader,
breaking all local records in progressing from a cadet to a competent BCO,
having recently achieved Residential 3 status,
and working towards commercial building competencies.

Enthusiasm, commitment and lots of other buzz-words describe this young person.
As a naturally inquisitive person he is always asking "why" and rather than "what".

The inquisitiveness has paid dividends for his council employer, as well as for himself.

He was recently given responsibility to lead his BCA team alongside the
Council's Information Management Group
to streamline processes and build a greater online presence.

He has also been nominated for and involved in SOLGM's Accelerated Leader Programme.
This has him working with other smart young things, sharing skills and securing our future.

Ladies and gentleman, please join me in welcoming to the stage, this year's winner of the –
