

PRYDA NZ CONTRIBUTION TO BOINZ AWARD:

This award is given to the individual or organisation who have made a significant impact to the advancement of BOINZ in the marketplace.

As a carpentry and joinery apprentice, “back in the day”, this individual has followed his passion in the intervening years.

Diligence, hard work and attention to detail are a trademark,
a commitment to lifting standards is another.

Joining BOINZ in 2008 as an Accredited Class 2 member, he has worked in several property inspection franchises over the years, all the time striving to improve his level of reporting, ensuring he provides clients the very best of service.

When the Institute’s Accredited Building Surveyors Programme was formed, he jumped at the opportunity for formal recognition – he is now one of our technical auditors, and with his fellow audit colleagues he works and gives to ensure the Accredited Building Surveyor Programme supports his fellow members.

Never one to let a client get away from receiving the expert services of a BOINZ Accredited Building Surveyor, he is known to travel huge distances to deliver expert Accredited Building Surveyor service – don’t worry he charges the mileage!!

A valued and cherished “go to” person for technical advice, an individual who recognises those who have supported and assisted him and those he can assist, he is very devoted to BOINZ and its Accredited Building Surveyors Programme.

Ladies and gentleman, please join me in welcoming,

“RICHARD WYN OF WHAT’S UP CENTRAL DISTRICTS LIMITED”

To accept the: -

“2019 PRYDA NZ CONTRIBUTION TO BOINZ AWARD”
