

RESENE CONSTRUCTION SYSTEMS EMERGING LEADER AWARD:

This Award is given to an individual who has shown exceptional leadership skills at a local and/or national level and whose actions have grown the value of BOINZ among members.

This year's recipient is young, relaxed and professional. He is a contributor and an achiever, and he is passionate about the construction sector. To boot, he is a solid BOINZ supporter.

He obviously has friends in high places – given the multiple nominations.

With work experience as a civil engineer and qualifications that include a *Master's in Construction Management*, this individual has rapidly progressed from Competency Level *Residential 2 to Commercial 1 in six months* – No mean achievement!!

He is a multi-tasker, processing consents for multiple councils across the country from residential to high scale projects, this individual still manages to find time for his most important role:

Secretary of the Institute's Auckland Branch.

Ladies and gentleman, please join me in welcoming –

“HASAN SHUEB FROM HOLMES FARSIGHT”

To the podium as this year's;

“2019 RESENE CONSTRUCTION SYSTEMS EMERGING LEADER AWARD WINNER” -
