

PACIFIC STEEL THE YOUNG* BUILDING CONTROL PROFESSIONAL OF THE YEAR:

Those qualifying for this award are required to be under the age of 35 years of age as at 31st December 2020. This Award goes to an individual who reflects strong professional growth and has dedicated their time to enhancing the Building Control profession.

When one reads this year's recipient's CV and you talk to those who know him, you quickly get the feel he is a "smooth operator".

After 5 years excelling as a builder, from transitioning through the ranks as an apprenticeship through to foreman, this individual set his sights on becoming a trainee Building Control Officer.

A quick learner, and known as one to effectively apply his knowledge, he advanced quickly through the competency requirements at a pace admired by many. He then quickly achieved Senior Building Control Officer rank with competency to up to and including **Commercial 3 status**.

His capabilities saw him included in his BCA's project team responsible for the smooth transition from a paper based system to a fully integrated online submission portal, including electronic inspections and processing systems.

His leadership talents saw him recruited onto the SOLGM (now known as **Taituara**) Management Challenge team, representing his Council in competing nationally against teams from around the country, using knowledge from his work experience environment.

In 2019, our recipient left Invercargill City Council and joined Southland District Council as their Senior Building Control Official and was then quickly promoted to the role of Building Control Team Leader, receiving the full backing of his fellow BCOs, whose experience ranged across 1 to 32 years.

Never one for the status quo, our recipient has since implemented key changes to procedures resulting in technical efficiencies for his BCA team, resulting in a smoother and more efficient BCA processing and inspection system.

Importantly, the adoption of these initiatives has allowed the team to transition away from a reliance on contractors ensuring an important internal capability is maintained, and risks reduced.

Ladies and gentlemen, please welcome:

"ANGUS MCINTYRE"

to the stage, to accept the **2021 –**

**"PACIFIC STEEL YOUNG* BUILDING CONTROL PROFESSIONAL OF THE YEAR
AWARD"**
